# AMERICANS HELD FOR RANSOM

Rebels Destroy American Ranch Property in Sonora; Nacozari Is Menaced.

Douglas, Ariz, Aug. 26.—Arrivals from Moctezuma assert that there are two Americans, said to be officials of the Mulatos mine at Dolores, being carried along with the rebels are prisoners. They are being held for a ransom of \$40,000, it is said, and are being slowly starved to death in order to enforce the payment of the sum.

Bestrey American Ranch.

Word was received by H. W. Loomis, of this city, that the rebels had spent four days in Bacadehhuachi, during which time they made his place their headquarters, breaking into the house and practically destroying all the improvements he had made during his stay of several years in Mexico. It was reported that they had prepared to burn the dwellings and other houses on his property at the time they left. On leaving Mexico some time ago, on account of the revolution, he placed in the hands of consul Dye an inventory of his belongings, which he had left there.

Alamos is still being besieged by the rebels, according to dispatches reaching here.

Rain Extinguishes Bridge Fire.

A torrential rain which fell near Magdalena saved the Southern Pacific de Mexico much loss through burned bridges, according to J. T. McDaniel, who has returned to Douglas. Mr. McDaniel accounted himself lucky to get out of Magdalena at this time.

The only bridge which was set fire to north of Magdalena la about a mile and a half distant from the town. It was burning flercely when an exceedingly heavy rain fell, extinguishing the fire after about 40 feet of the bridge was destroyed. This was quickly cribbed up by railroad workmen and a train run through, Many bridges to the south were destroyed and the railroad people do not know when they will be able to resume traffic.

McDaniel went to Magdelena to receive 2000 cattle contracted for by R. L. Benton & Co., of which he is a member. He has given up the idea of bringing out the cattle, however, as the Mexicans are so frightened by the reports of the activities of the rebels that they refuse to go out to work on the round-up.

refuse to go out to work on the roundup.

Foolish for Women to Stay.

"The Mexican rebels are inflicting such terrible indignities upon their own people that American women are foolish to stay and risk similar treatment, "said Mrs. M. F. Sanders, of Nacozari, who has arrived from the south. Mrs. Sanders is now en route to her former home in Utah to await developments in Mexico.

Mrs. Sanders is a sisteriniaw of senator George Sullivan, of Utah, and will lay before him the things which she knows in connection with the present trouble, across the line. She is outspoken in her contempt for the foreign policy of the United States, which allows its citizens to be treated with marked indignity, insulted and even injured or killed with nothing more ahan a mild rebuke being vouchsafed by the president or secretary of war. the president or secretary of war.

Nacozari people generally expect
that camp to be occupied by the rebels
within the next week or so, she stated.

Very few American women are now in the big copper camps to the south.

ROOSEVELT WILL ANSWER ARCHBOLD IN OPEN LETTER Oyster Bay, N. Y., Aug. 26.—Having failed to obtain a nearing before the senate committee investigating cam-paign contributions because of the in-

paign contributions because of the inability of the committee to get together, Col. Roosevelt plans to write
the committee a letter, embodying some
of the things to which he would have
testified. Col. Roosevelt, in his letter,
may touch lightly on his primary campaign of 1912. It is reasonably sure
he will devote considerable space to
his relations with senator Penrose
while he was president.

"Let me repeat as strongly as I can,
that I do not understand why the committee let Mr. Archbold go to Europe
without examining him on the real
charge, and that I regret that I was
not given the chance immediately to
appear and testify.

"The committee of the chance immediately to

appear and testify. What Col. Roosevelt knew and did in the matter of John D. Archbold's alleged \$100,000 contribution to the Republican campaign fund in 1904; what president Roosevelt said to the late E. H. Harriman and what Mr. Harriman said to president Roosevelt about Harriman's \$250,000 contribution, are matters to which William Loeb jr., formerly Mr. Roosevelt's private secretary, is prepared to testify to before the sen-

ate committee investigating campaign funds, said Col. Roosevelt today. "Mr. Loeb told me that he had seen statements that he was to be brought before the committee." Col. Roosevelt said. "He wished to come and tell me about the rumors. I told him that if he was called, he was to go, of course, and to testify to everything."

to testify to everything."

Colonel Roosevelt was greatly pleased at the prospect of Mr. Loeb's testifying before the committee.

"While under no circumstances would I myself ever have asked Mr. Loeb to testify." Col. Roosevelt declared. "I am more than pleased that the committee chooses to do so. For instance, when I made my statement about Mr. Harriman in Mr. Harriman's life time, I let it rest only on my written letters, yet, as the committee has chosen to listen to hearsay gossip by Mr. Odell and Mr. Archbold as to what Mr. Harriman said took place at that interview, I shall be glad to have them listen to Mr. Loeb who was present at the interview.

While Mr. Bryan is concentrating on the northwest and the middle west, speak-er Clark will four the southwest. After his three speeches in Maine he will pro-ceed to Missouri, Colorado, New Mex-ico, Arizona and California. The campaign committee's idea was to have Mr. Clark visit those states in which he thought he could be of the most value. CHARRED BONES OF VICTIMS

FOUND ON BATTLEFIELD. Washington, D. C. Aug. 26.—Details of an inspection of the battlefield near Managua where the government troops and rebels fought the recent gruelling contest have reached the state department in a dispatch from United States minister Weitzel. The dispatch was delayed in transit, being dated August 21.

Instead of finding mangled bodies on the field the charred bones of burned victims were to be seen, according to the dispatch. In the hospitals 46 women were found. They had been wounded while passing ammunition to the men. The majority of the wounds were inflicted by machetes and not by rifle shots.
